Statement of Operations and Changes in Net Assets for the period ended 30 September 2014	98
Notes to the Financial Statements	112
Comparative Table of Net Assets	208
Portfolio of Investments and Other Net Assets as at 30 September 2014	234
Currency Conversion Table	400
Dealing Days of the Fund	401
Fund Holiday Calendar for 2015	402

General Information

General

HSBC Investment Funds (Luxembourg) S.A. (the "Management Company") uses a risk management process that allows monitoring the risk of the portfolio positions and their share of the overall risk profile of the portfolios on the managed funds at any time. In accordance with the Law of 17 December 2010 and the applicable regulatory requirements of the Commission de Surveillance du Secteur Financier ("CSSF"), the Management Company reports to the CSSF on a regular basis on the risk management process. The Management Company assures, on the basis of appropriate and reasonable methods, that the overall risk, associated with derivatives, does not exceed the net asset value of the portfolio. The Management Company uses the following methods:

Commitment Approach

The "Commitment Approach" is based on the positions of Financial Derivative Instruments ("FDI") converted into their corresponding underlying equivalents using the delta approach. Netting and hedging might be considered for FDI and their underlying assets provided that the approach complies with the regulations. The sum of these underlying equivalents must not exceed the net asset value of the fund.

Value-at-Risk ("VaR") is a mathematical approach used to estimate the potential loss of a portfolio over a specified holding period within a given confidence level. VaR can be calculated on either an absolute or a relative basis.

Absolute VaR approach

In the absolute VaR approach the VaR (99% confidence level, 20-day holding period) of the fund cannot exceed 20% of the fund net assets.

Relative VaR approach

Relative VaR is calculated in relation to a suitable benchmark or reference portfolio. Using this approach, the relative VaR cannot exceed the VaR of a reference portfolio by more than a maximum of twice (200%). The reference portfolio is a matching portfolio in comparison to the Fund's investment policy.

The Management Company has delegated the VaR monitoring to the following Global Risk Management teams:

HSBC Global Asset Management Limited (AMGB)

The VaR has been calculated using the Algorithmics risk engine which uses a historic simulation approach using the following parameters:

- One tailed confidence interval of 99%.
- Holding period equivalent to 1-month.
- Effective observation period of at least 250 days.
- Daily data set updates.
- Daily VaR calculation.

General Information (continued)

HSBC Global Asset Management (France)

The VaR has been calculated using a parametrical approach (variance-covariance matrix) with the following parameters:

- One tailed confidence interval of 99%.
- Holding period equivalent to 1-day but rescaled to the regulatory holding period (1-month).
- Effective observation period of at least 250 days.
- Daily data set updates are used for:
 - o HGIF – Global Inflation Linked Bond
 - o HGIF – Global Macro
- Weekly data set updates are used for
 - o all other Sub-funds managed by HSBC Global Asset Management (France).
- Daily VaR calculation.

HSBC Bank Brasil S.A – Banco Múltiplo

The VaR has been calculated using a parametrical approach (variance-covariance matrix) with the following parameters:

- One tailed confidence interval of 99%.
- Holding period equivalent to 1-day but rescaled to the regulatory holding period (1-month).
- Effective observation period of at least 250 days.
- HGIF Brazil Bond: Daily absolute VaR calculation.
- HGIF Brazil Equity: Monthly benchmark VaR calculation.

* HGIF - Brazil Bond: VaR utilisation as a percentage of the sub-fund Assets Under Management

General Information (continued)

Leverage

For Sub-funds measuring and monitoring the global risk on derivatives via VaR approach, the Management Company has delegated the leverage monitoring to the respective Sub-Funds' Investment Advisers who determine the sum of the notional values of all the relevant FDI and estimate in this regard a degree of the expected average value (leverage). This level of leverage can, depending on the respective market conditions, derive from the actual value at the reporting date. Furthermore, the published expected/ level of leverage is explicitly not understood as an investment limit.

Sub-Fund	Starting period	Ending Period	Leverage Methodology	Maximum Expected level of leverage	Realised Average level of leverage
1) Bond Sub-Funds					
HGIF - Asian Currencies Bond	01/04/2014	30/09/2014	Sum of Notionals	100%	19.98%

Notes to the Financial Statements

for the period ended 30 September 2014

1. Basis of presentation

HSBC Global Investment Funds (the "Company") is incorporated under the laws of the Grand Duchy of Luxembourg as an investment company with variable capital (Société d'Investissement à Capital Variable or "SICAV"). The capital comprises various Classes of Shares each relating to a separate portfolio (a "Sub-fund") consisting of securities, cash and other sundry assets and liabilities. The accompanying financial statements present the assets and liabilities and the statement of operations and changes in net assets of the individual Sub-funds and of the Company taken as a whole. The financial statements of each individual Sub-fund are expressed in the currency designated in the Prospectus for that particular Sub-fund and the financial statements of the Company are expressed in United States Dollars (USD). The financial statements have been prepared in accordance with the format prescribed by the Luxembourg authorities for Luxembourg investment companies.

The Company is an officially registered investment fund under part I of the Luxembourg law of 17 December 2010 on undertakings for collective investment (the "2010 Law") and qualifies as a UCITS fund under the European directive 2009/65/EC.

Certain Sub-funds of the Company are authorised by the Hong Kong Securities and Futures Commission under Section 104 of the "Securities and Futures Ordinance".

In the Prospectus and in the various reports, the short names of the Sub-funds are used. The complete name of each Sub-fund consists of "HSBC Global Investment Funds" plus the short name of the Sub-fund.

From 1 April 2014 to 30 September 2014:

1) The following Sub-funds have been opened:

- ▶ ASEAN Equity on 12 May 2014
- ▶ Global Government Bond on 25 June 2014
- ▶ Global Equity Volatility Focused on 25 June 2014
- ▶ Global Corporate Bond on 30 June 2014

Notes to the Financial Statements

for the period ended 30 September 2014 (continued)

2. Accounting policies

The following accounting policies have been used consistently in dealing with items which are considered material in relation to the Company's financial statements.

a) Accounting convention

The financial statements have been prepared under the historical cost convention modified by the revaluation of investments.

b) Assets and portfolio securities valuation

Portfolio securities and/or financial derivative instruments which are listed on an official stock exchange are valued at the last available price on the principal market on which such securities are traded. Securities traded on other organised markets are valued at the last available price or yield equivalents obtained from one or more dealers in such organised markets at the time of valuation. If such prices are not representative of their fair value, all such securities and all other permitted assets shall be valued at their fair value at which it is expected they may be resold as determined in good faith by or under the direction of the Directors.

The assets of each share class within most of the Sub-funds are valued using prices available at different times during the day of 30 September 2014, being the last business day of the reporting period.

If the Company had calculated the net asset values solely with a view to publication, the market prices used to value the net assets would have been the closing prices on 30 September 2014. However, these net asset values would not have been significantly different from those shown in these financial statements, except for the following Sub-fund, for which the following variations would have been observed:

Sub-Fund	Currency	% difference (in % of NAV)
Brazil Bond	USD	0.54%

The financial derivative instruments which are not listed on any official stock exchange or traded on any other organised market are valued in accordance with market practice. Shares or units in underlying open-ended investment Sub-funds are valued at their last available net asset value reduced by any applicable charges.

The Company uses the amortized cost method of valuation in valuing its portfolio of financial instruments in the form of short term debt (such as commercial paper, certificate of deposit, treasury bills). In addition, in the rare circumstances where a fixed income instrument with a time to maturity exceeding 90 days becomes stale, the Company will effectively value it at amortised cost until such date when it is either sold or its market becomes active again.

Euro Reserve and Global Macro Sub-funds

With effect from Monday 23 September 2013, the valuation methodology for money market instruments with a duration of 90 days or more changed from linear pricing to yield curve pricing.

c) Income and Expenses

Dividends are accounted for on an ex-dividend basis.

Interest is accrued on a day-to-day basis. In the case of debt securities issued at discount or premium to maturity value, the total income arising on such securities, taking into account the amortisation of such discount or premium on an effective interest rate basis, is spread over the life of the security. Interest income on bonds are accounted for using the effective interest rate ("EIR") method.

Notes to the Financial Statements

for the period ended 30 September 2014 (continued)

2. Accounting policies (continued)

d) Foreign Exchange

The cost of investments, income and expenses in currencies other than the Sub-funds' relevant reporting currency have been recorded at the rate of exchange ruling at the time of the transaction. The market value of investments and other assets and liabilities in currencies other than the relevant reporting currency have been converted at the rates of exchange ruling at 30 September 2014.

e) Realised Profit/(Loss) on Sale of Investments

Realised profit/(loss) on sale of investments is the difference between the historical average cost of the investment and the sale proceeds.

f) Segregated liability

The Company has segregated liability between its Sub-funds; meaning, the assets of a Sub-fund are exclusively available to satisfy the rights of shareholders in relation to that Sub-fund and the rights of creditors whose claims have arisen in connection with the creation, operation and liquidation of that Sub-fund.

3. Share capital

The Company has issued either A, B, E, I, J, L, M, N, P, R, S, W, X, Y and Z Shares to investors in one or several Sub-funds as detailed below.

Within each Share Class of a Sub-fund, the Company shall be entitled to create different sub-classes, distinguished by their distribution policy (Capital Accumulation (C), Distribution (D) and Monthly Distribution (M) Shares), their reference currency, their hedging activity (H) and/or by any other criteria stipulated by the Board of Directors.

All share classes are available as both 'Capital Accumulation' and 'Distribution' shares.

Class	Description		Minimum Investment	Initial Minimum Holding
Class A	A Shares are available to all investors.	USD	5,000 Unless otherwise provided in the Sub-Fund characteristics of the Prospectus	
Class B	B Shares are available in the United Kingdom and Jersey through specific distributors selected by the Distributor. B Shares may be available in other countries through specific distributors selected by the Distributor on application to the Company.	USD	5,000 Unless otherwise provided in the Sub-Fund characteristics of the Prospectus	
Class E	E Shares are available in certain countries, subject to the relevant regulatory approval, through specific distributors selected by the Distributor. E Shares shall incur annual management fee, equivalent to that of the Class A Shares plus 0.3% to 0.5% per annum of the Net Asset Value of Class E Shares, which may be payable to specific distributors in certain countries.	USD	5,000 Unless otherwise provided in the Sub-Fund characteristics of the Prospectus	
Class I	I Shares are available through specific distributors selected by the Distributor on application to the Company.	USD	1,000,000	
Class J	J Shares are available for investment by funds of funds managed by the HSBC Group or managed by specific entities selected by the Distributor.	USD	100,000 Unless otherwise provided in the Sub-Fund characteristics of the Prospectus	

Notes to the Financial Statements

for the period ended 30 September 2014 (continued)

3. Share capital (continued)

Class	Description		Minimum Initial Investment	Minimum Holding
Class L	L Shares are available through specific distributors selected by the Distributor, provided that such investors qualify as institutional investors within the meaning of article 174 of the 2010 Law.	USD		1,000,000
Class M	M Shares are available to all investors.	USD	5,000 Unless otherwise provided in the Sub-Fund characteristics of the Prospectus	
Class N	N Shares are available in the United Kingdom and Jersey through specific distributors selected by the Distributor. N Shares may be available in other countries through specific distributors selected by the Distributor on application to the Company.	USD		5,000
Class P	P Shares are available for subscription in certain jurisdictions or through certain distributors selected by the Distributor on application to the Company.	USD	50,000 Unless otherwise provided in the Sub-Fund characteristics of the Prospectus	
Class R	R Shares are available in certain countries, subject to the relevant regulatory approval, through specific distributors selected by the Distributor. R Shares shall incur annual management fees equivalent to that of the Class M shares plus 0.3% to 0.5% per annum of the Net Asset Value of Class R Shares, which may be payable to specific distributors in certain countries.	USD	5,000 Unless otherwise provided in the Sub-fund characteristics of the Prospectus	
Class S	S Shares are available in certain jurisdictions or through certain distributors selected by the Distributor provided that such investors qualify as institutional investors within the meaning of article 174 of the 2010 Law.	USD		100,000
Class W	W Shares are available through specific distributors that shall also be members or affiliated entities of the HSBC Group as selected by the Distributor provided that such investors qualify as institutional investors within the meaning of article 174 of the 2010 Law. No Operating, Administrative and Servicing Expenses shall be charged to Class W Shares. All fees and charges allocated to this class shall be paid directly by members or affiliated entities of the HSBC Group.	USD	100,000 Unless otherwise provided in the Sub-fund characteristics of the Prospectus	
Class X	X Shares are available through specific distributors selected by the Distributor, provided that such investors qualify as institutional investors within the meaning of article 174 of the 2010 Law and fall into one of the following categories: companies or company pension funds, insurance companies or registered charities or funds managed or advised by an HSBC Group entity and other such institutional investors, as agreed by the Board of Directors.	USD	10,000,000 Unless otherwise provided in the Sub-fund characteristics of the Prospectus	
Class Y	Y Shares are available in certain jurisdictions through specific distributors appointed by the Distributor.	USD		1,000
Class Z	Z Shares are available to investors having entered into a discretionary management agreement with an HSBC Group entity and to investors subscribing via distributors selected by the Distributor, provided that such investors qualify as institutional investors within the meaning of article 174 of the 2010 Law.	USD		1,000,000

Notes to the Financial Statements

for the period ended 30 September 2014 (continued)

3. Share capital (continued)

The Board of Directors of the Company is authorised to issue different Classes of Shares in one or more Sub-funds. Details of the characteristics of such Share Classes offered shall be determined at the sole discretion of the Board of Directors. In case of the creation of any additional Classes of Shares, the Prospectus shall be updated.

The subscription proceeds of all Shares in a Sub-fund are invested in one common underlying portfolio of investments. All Shares of the same Class have equal rights and privileges. Each Share is, upon issue, entitled to participate equally in assets of the relevant class of the Sub-fund to which it relates on liquidation and in dividends and other distributions as declared for such Sub-fund. The Shares shall carry no preferential or pre-emptive rights and each whole Share shall be entitled to one vote at all meetings of shareholders.

The minimum initial investment amount may be waived or reduced at the discretion of the Board of Directors of the Company.

Share Class Denominations and Successive Classes:

The Share Classes issued in the different Sub-funds are designated by their class name, followed by their distribution characteristics and, if applicable, their specific hedging policy and the currency into which the Base Currency is hedged. This means that for example Shares issued in Class A which are distributing income and applying a hedging policy to Euro, as defined above, would be identified as ADHEUR whereas Class I Shares accumulating income would be identified as IC.

Distribution Shares are identifiable by a "D" following the Sub-fund and Class names (e.g.: Class AD), with the exception of Monthly Distribution Shares which are identifiable by an "M" following the Sub-fund and Class names (e.g.: Class AM).

Successive Classes J, L, M and R in a given Sub-fund are numbered 1, 2, 3... and shall be referred to as J1, J2, J3, (...), L1, L2, L3 (...), M1, M2, M3 (...) etc.

Successive Classes S Shares shall be issued in different Sub-funds, and numbered 1, 2, 3 etc. and shall be referred to as S1, S2, S3, etc. for the S Class launched in the first Sub-fund, S Class launched in the second Sub-fund and S Class launched in the third Sub-fund, respectively and as disclosed in the relevant Sub-fund characteristics (see Section 3.2. of the Prospectus).

Within each Share Class of a Sub-fund, separate currency hedged classes may be issued (suffixed by "H" and the currency into which the Base Currency is hedged or the currency into which the Sub-fund total assets are primarily invested in, is hedged. These currency hedged share classes shall be named: "ACHEUR" or "ACHGBP" for a Capital-Accumulation Share Class hedged into Euro or Pound Sterling). Any fees of the Administrator relating to the execution of the currency hedging policy shall be borne by the relevant currency hedged class. These fees are in addition to the operating, administrative and servicing expenses detailed below. Any gains or losses shall also accrue to the relevant currency hedged class.

4. Charges and expenses

a) Explanation of the Charging Structure

Investment in the Company is generally offered via charging structures, as represented by the A, E, I, J, L, M, P, R, S, W, X, Y and Z Classes of Shares.

The Management Company is entitled, in respect of each Class of Shares, to a management fee to cover all investment management, investment advisory and distribution services provided in relation to the relevant class (see paragraph (b) headed "Management Fee" below).

In addition, the Company pays to the Management Company a fee to cover operating, administrative and servicing expenses. To safeguard shareholders from fluctuations in a Sub-fund's operating, administrative and servicing expenses, the Company has agreed with the Management Company that the fee charged to cover such operating, administrative and servicing expenses is fixed at an annual rate.

The potential excess of such expenses above such annual rate shall be borne directly by the Management Company (see paragraph (e) headed "Operating, Administrative and Servicing Expenses/Operating Currency Hedging Fees" below).

Notes to the Financial Statements

for the period ended 30 September 2014 (continued)

4. Charges and expenses (continued)

b) Management Fee

The Company pays to the Management Company an annual management fee calculated as a percentage of the Net Asset Value of each Sub-fund or share class ("Management Fee"). The Management Fee is accrued daily and payable monthly in arrears at the rates specified in the table on page 183 and following.

The maximum rate for Class E, I, J, L, M and N Shares is 3.5%.

The maximum rate for Class A, B, P, R, S, X, Y and Z Shares is as stated in the Prospectus.

No Management Fee is currently charged for Class W Shares.

The Management Fee covers management and distribution services provided in relation to the relevant Sub-fund of the Company by the Management Company, the Investment Advisers and the Share Distributors. The Management Company is responsible for discharging, out of such fee, the fees of the Investment Advisers and the Share Distributors and may pay part of such fee to recognised intermediaries or such other person as the Management Company may determine, at its discretion.

The Management Company may instruct the Company to pay a portion of the Management Fee directly out of the assets of the Company to any of such service providers. In such case, the Management Fee due to the Management Company is reduced accordingly. If the Company invests in shares or units of UCITS (including other sub-funds of the Company) and other UCIs that are managed directly or indirectly by the Management Company itself or a company with which it is linked by way of common management or control or by way of a direct or indirect stake of more than 10% of the capital or votes, then there will be no duplication of management, subscription or repurchase fees between the Company and the UCIs into which the Company invests. In derogation of this, if the Company invests in shares of HSBC ETFs PLC, then there may be duplication of management fees for any sub-fund. The maximum total management fees charged both to the relevant sub-fund and to HSBC ETFs PLC will be disclosed in the annual report, if applicable.

c) Performance Fee

Summary

For certain Sub-funds and Share Classes, the Management Company is entitled to receive from the net assets of a Share Class, in addition to other fees and expenses mentioned in the Prospectus dated August 2013 (including addenda dated November 2013 and May 2014), an annual performance fee.

A performance fee shall normally be applied at Share Class level to any Sub-fund issuing Class L Shares, M Shares, N Shares and R Shares. For Class J Shares the performance fee shall be charged only if provided for in Section 3.2. "Sub-Fund Details", of the Prospectus.

A separate performance fee calculation shall be carried out for each Share Class within a Sub-fund.

The performance fee shall be calculated and accrued at each valuation of the Sub-fund and payable at the end of the Performance Period, or on the net redemptions and/or conversions of Shares, if earlier.

If the Company invests in shares or units of UCITS (including other Sub-funds of the Company) and other UCIs that are managed directly or indirectly by the Management Company itself or a company with which it is linked by way of common management or control or by way of a direct or indirect stake of more than 10% of the capital or votes, then no duplication of performance fees shall occur.

The avoidance of a double-charge of the performance fee is achieved by either i) where a Sub-fund invests in shares or units of such UCITS and other UCIs, and these UCITS and/or UCIs charge performance fees, the Sub-fund shall not charge a performance fee, or ii) where a Sub-fund charges a performance fee, it shall not invest in share classes that charge a performance fee.

For the avoidance of doubt, it is clarified that the performance fee is calculated for each Share Class on the basis of the unadjusted Net Asset Value per Share, e.g. before any pricing adjustment that might be applied to the Net Asset Value per Share to mitigate the effects of transaction costs.

Notes to the Financial Statements

for the period ended 30 September 2014 (continued)

4. Charges and expenses (continued)

c) Performance Fee (continued)

The performance fee calculations ensure that the Management Company cannot earn a performance fee until any underperformance against the Hurdle Rate has been recovered.

Calculation Method

The High Water Mark defines a reference point for the Net Asset Value per Share above which, after adjustment for dividend distributions if any, a performance fee becomes payable.

A Sub-fund may only accrue a performance fee in the event that both of the conditions below are met:

1. The Net Asset Value per Share Return of the relevant Share Class outperforms the relevant Hurdle Rate over the Performance Period and;
2. The Current Day NAV is higher than the High Water Mark.

Where the Current Day NAV, decreases below the High Water Mark and/or the Net Asset Value per Share Return underperforms the relevant Hurdle Rate, no performance fee shall be accrued until such a decrease or underperformance has been recovered in the course of any one Performance Period.

If, at the end of the Performance Period, the Net Asset Value per Share is below the relevant Hurdle Rate and the performance fee is not paid, then the High Water Mark for the following Performance Period shall be the past year's High Water Mark plus the Hurdle Rate.

Performance Fee Accrual

At each valuation of the Sub-fund:

- ▶ The cumulative "Excess Return" since the beginning of the Performance Period is calculated as the difference between the cumulative Net Asset Value per Share Return and the cumulative Hurdle Rate since the beginning of the Performance Period.
- ▶ The cumulative performance fee per Share is equal to the cumulative "Excess Return" multiplied by the Performance Rate.
- ▶ The daily performance fee per Share is calculated as the difference between the cumulative performance fee per Share on the valuation and the cumulative performance fee per Share at the previous valuation.
- ▶ The daily performance fee accrual for the Share Class is equal to the performance fee accrual per Share on the valuation multiplied by the outstanding number of Shares on the valuation for that Share Class.
- ▶ The cumulative performance fee accrual before crystallisations for the Share Class is calculated as the sum of the cumulative performance fee accrual before crystallisations at the previous valuation and the performance fee accrual of that Share Class at the valuation.
- ▶ Any performance fee accrued on net redeemed and/or converted Shares is crystallised (by taking the proportion of net redeemed and/or converted Shares to the number of Shares in issue). The daily and total performance fee accruals since the beginning of the Performance Period are adjusted accordingly.

The daily performance fee accrual can be positive or negative however the cumulative performance fee accrual shall never be reduced to below zero.

The cumulative performance fee accruals from the beginning of the Performance Period shall be, at each valuation, included in the ongoing calculation of the Net Asset Value per Share of which subscriptions, redemptions and conversions may be accepted.

Crystallisation

Crystallisation of the performance fee occurs on the last valuation of each Performance Period. Any performance fee due is payable out of the Sub-fund to the Management Company in arrears after the end of the Performance Period.

Accordingly, once the performance fee has crystallised, no refund shall be made in respect of any performance fee paid out at that point in subsequent Performance Periods.

Notes to the Financial Statements

for the period ended 30 September 2014 (continued)

4. Charges and expenses (continued)

c) Performance Fee (continued)

If there is a net redemption and/or conversion of Shares at any valuation before the end of the Performance Period, any accrued performance fee with respect to such redeemed Shares shall crystallise on that valuation and shall then become payable to the Management Company.

Computation of Performance Fees

Performance fees are calculated by the Administration Agent.

The Auditors of the Company shall audit the calculations of the performance fees paid out on an annual basis.

The Board of Directors shall ensure that the accrual represents fairly and accurately the performance fee liability that may eventually be payable by the Sub-fund or Share Class to the Management Company.

Annual Payment of Performance Fees

At the end of a Performance Period the positive balance (if any) of the performance fee accrual shall become payable to the Management Company and the performance fee accrual in the Net Asset Value per Share of the relevant Share Class shall be reset to zero and a new High Water Mark set.

The performance fee, if applicable, is payable yearly immediately following the end of each Performance Period.

Performance fees payable to the Management Company in any financial year are not refundable in any subsequent accounting years.

Pursuant to the provisions of the relevant Investment Advisory Agreement, the Investment Adviser may be entitled to receive from the Management Company the whole or part of the performance fee.

In the case of liquidation or merger of a Sub-fund or Share Class to which a performance fee is applicable, the performance fee shall be paid on the last valuation day before its liquidation or merger.

d) Directors' Fees, Expenses and Interests

A Director may be a party to, or otherwise interested in, any transaction or arrangement with the Company or in which the Company is interested, provided that he has disclosed to the other Directors, prior to the conclusion of any such transaction or arrangement, the nature and extent of any interest of his therein. A Director may vote in respect of any contract or arrangement or any proposal whatsoever in which he has an interest, having first disclosed such interest. He shall not be disqualified by his office from contracting with the Company. If a Director declares his interest in any contract which the Company is considering entering into, he may be counted in the quorum of any meeting to consider the contract and may vote on any resolution to enter into such contract, provided that the decision to be taken by the Board of Directors relates to the current operations entered into under normal conditions.

The Independent Directors are entitled to a fee totaling EUR 100,000 per annum. This amount is paid by the Management Company through the Operating, Administrative and Servicing Expenses paid by the Company (see Note 4 e).

e) Operating, Administrative and Servicing Expenses / Operating Currency Hedging Fees

The Company pays to the Management Company a fee to cover certain Operating, Administrative and Servicing Expenses. The Management Company is responsible for discharging out of this fee, the expenses described below, inter alia, payable to the Depositary Bank, Administration Agent, Registrar and Transfer Agent.

This fee is set, for each Sub-fund and/or Class, at a fixed percentage of the Net Asset Value of the relevant Sub-fund or class specified in the Company's Prospectus (as specified in the table on page 181 and following). Such fee is accrued daily and payable monthly in arrears.

No Operating, Administrative and Servicing Expenses shall be charged to Class W Shares. All the fees and charges allocated to such Class of Shares shall be paid directly by a member or an affiliated entity of HSBC Group.

Notes to the Financial Statements

for the period ended 30 September 2014 (continued)

4. Charges and expenses (continued)

e) Operating, Administrative and Servicing Expenses / Operating Currency Hedging Fees (continued)

The maximum rate for class A, B, E, I, J, L, M, N, P, R, S, X, Y and Z Shares is 1.0% (but not including the fees of the Administration Agent relating to the execution of the currency hedging for the currency hedged Share Classes). However, the Board of Directors reserves the right to amend the fixed level of the Operating, Administrative and Servicing Expenses applicable to each Class of Shares. In the event of an increase of such expenses, the concerned shareholders shall be given at least three months prior notice of such increase. During this three months' notice, such shareholders may request the redemption of their Shares, free of charge.

Operating, Administrative and Servicing Expenses cover the ongoing custody/depository fees and safekeeping charges payable to the Depositary Bank and its correspondent banks, fees for fund accounting and administration services (including domiciliary services) payable to the Administrative Agent and transfer agency fees for registrar and transfer agency services payable to the Registrar and Transfer Agent.

Operating, Administrative and Servicing Expenses also cover expenses relating to the creation of new Sub-funds; the costs of the Subsidiaries (see paragraph (6) below); the Luxembourg asset-based *taxe d'abonnement*, at the rate referred to under Section "Taxation" of the Company's Prospectus; attendance fees and reasonable out-of-pocket expenses incurred by the Board of Directors; legal and auditing fees and expenses; ongoing registration and listing fees, including translation expenses; the costs and expenses of preparing, printing, and distributing the Company's Prospectus, Key Investor Information Documents, financial reports, statements and other documents made available directly or through intermediaries to its shareholders.

The Company pays to the Management Company a fee to cover the expense of the Administration Agent relating to the execution of the hedged Share Classes launched on or after 1 December 2008.

The Management Company may instruct the Company to pay a portion of the aforesaid fees directly out of the assets of the Company to any of the aforementioned service providers. In such case the fee due to the Management Company is reduced accordingly. If the Company invests in shares or units of UCITS (including other sub-funds of the Company) and other UCIs that are managed directly or indirectly by the Management Company itself or a company with which it is linked by way of common management or control or by way of a direct or indirect stake of more than 10% of the capital or votes, then there will be no duplication of management, subscription or repurchase fees between the Company and the UCIs into which the Company invests. In derogation of this, if the Company invests in shares of HSBC ETFs PLC, then there may be duplication of management fees for any sub-funds. The maximum total management fees charged both to the relevant sub-fund and to HSBC ETFs PLC will be disclosed in the annual report, if applicable.

5. Transaction expenses and extraordinary expenses

Transaction expenses linked to security dealing are written off against the realised profit/loss from the sale of investments.

Each Sub-fund bears the costs and expenses of buying and selling portfolio securities and financial instruments, brokerage fees and commissions, interest or taxes payable, and other transaction related expenses. These transaction fees are accounted for on a cash basis and are paid when incurred or invoiced from the net assets of the Sub-fund to which they are attributable. Transaction fees are allocated across each Sub-fund's Share Classes.

The Company bears any extraordinary expenses including, without limitation, litigation expenses and the full amount of any tax, levy, duty or similar charge and any unforeseen charges imposed on the Company or its assets.

6. Indian Equity and Global Emerging Markets Equity

The Company's wholly owned subsidiaries in Mauritius, HSBC GIF Mauritius Limited ("HSBC Mauritius") and HSBC GIF Mauritius No. 2 Limited ("HSBC Mauritius No. 2"), (each a Subsidiary or collectively, the Subsidiaries") are located at Rogers House, 5 President John Kennedy Street, Port Louis, Mauritius. HSBC Mauritius manages the Indian Equity sub-fund's investments in India, whilst HSBC Mauritius No. 2 manages the Global Emerging Markets Equity sub-fund's investments in India.

Notes to the Financial Statements

for the period ended 30 September 2014 (continued)

6. Indian Equity and Global Emerging Markets Equity (continued)

HSBC Mauritius was incorporated in Mauritius on 3 October 1995. The accounts of the Indian Equity sub-fund and of HSBC Mauritius are consolidated.

HSBC Mauritius No. 2 was incorporated in Mauritius on 21 November 2007. The accounts of the Global Emerging Markets Equity sub-fund and of HSBC Mauritius No. 2 are consolidated.

The Subsidiaries have appointed CIM Fund Services Ltd, Rogers House, 5 President John Kennedy Street, Port Louis, Mauritius, to provide administrative services to the Subsidiaries in Mauritius, including maintenance of its accounts, books and records.

The Subsidiaries have appointed KPMG Mauritius, KPMG Centre, 30 St George Street, Port Louis, Mauritius, as auditors of the Subsidiaries in Mauritius to perform the auditor's duties required by Mauritius law.

7. Taxation of the Company

The following summary is based on the Company's understanding of the law and practice currently in force in the Grand Duchy of Luxembourg and in other jurisdictions and is subject to changes therein.

Belgium

The Belgian government has enacted a law which charges an annual net asset value tax on foreign investment funds registered with the Belgian Banking and Finance Commission. An annual tax of 0.08% is charged on the net outstanding amounts of sub-funds placed in Belgium through Belgian financial intermediaries, or where that figure is not substantially documented, the tax authorities may calculate the tax on the total assets of those sub-funds.

To date as the amounts are small, the Management Company has paid this tax cost on behalf of the Company out of the Operating, Administrative and Servicing Expenses it receives. However, should the cost become substantial or long term, the Management Company may require the sub-funds concerned to bear that tax charge for future periods.

China

Where the Company invests in shares and securities issued by companies tax resident (or with their primary activity) in the People's Republic of China ("PRC"), securities issued by government agencies in the PRC or other permissible PRC investments, the Company may be subject to withholding and other taxes imposed in the PRC. The tax laws, regulations and practice in the PRC are constantly changing, and they may be changed with retrospective effect. In particular, there is uncertainty as to whether and how capital gains are to be taxed. Therefore any provision for PRC tax liabilities that the Company may hold is likely to be excessive or inadequate to meet final PRC tax liabilities, and in particular (but not exclusively) in relation to gains derived from the disposal of PRC investments.

Consequently, the Company and shareholders may be disadvantaged depending upon the final outcome of how PRC investment returns shall be taxed.

Hong Kong

The Company may be subject to Hong Kong profits tax in relation to a particular sub-fund if it is treated as carrying on a trade or business in Hong Kong either on its own account or through the agency of the investment adviser of that sub-fund. If the Company is treated as carrying on business in Hong Kong, a liability to profits tax, the rate of which is currently 16.5%, shall only exist in respect of any profits of the relevant sub-funds which arise in or are derived from Hong Kong from that trade or business, and which are not capital profits. Such amounts may include, but not be limited to, profits arising from the disposal of securities (except those held as capital assets) listed on the Hong Kong Stock Exchange, unlisted securities where the purchase or sale contracts are effected in Hong Kong and interest income arising from certain debt instruments where the loan funds were first made available to the issuer in Hong Kong.

Under the Revenue (Profits Tax Exemption for Offshore Funds) Ordinance 2006, funds resident outside Hong Kong ("Offshore Funds") are exempted from Hong Kong profits tax providing certain conditions are met. It is intended that affairs of the Company shall be conducted as far as possible to comply with the conditions for exemption from profits tax.

Notes to the Financial Statements

for the period ended 30 September 2014 (continued)

7. Taxation of the Company (continued)

India

On the basis that they are Mauritian tax residents, the Subsidiaries shall benefit from the tax advantages available to them under the India-Mauritius double taxation treaty, which became effective on 1 July 1983. The Subsidiaries shall file, through their Custodian, a declaration of Mauritian residency with the registrar of each Indian company in which it invests. Until 31 March 2016, capital gains resulting from the purchase and sale by the Subsidiaries of stocks on the Indian stock exchanges have been exempt from tax on the basis that the Subsidiaries are able to benefit from the provisions of the India-Mauritius double taxation treaty.

Interest on certain notified securities and bonds and on deposits in foreign currency with scheduled banks is exempt from income tax. The sale and purchase of stocks and securities is exempt from Indian Sales tax.

The above-stated tax treatment under the India-Mauritius tax treaty shall be available provided that the Subsidiaries neither have a permanent establishment nor their effective management and control in India. No guarantee or warranty can be given or should be assumed that the tax benefits of the said treaty shall continue to be available to the Indian Equity and in Global Emerging Markets Equity sub-funds in future periods due to, among others, changes in the regulatory environment in Mauritius, India or the European Union.

Dividends paid by the Indian companies are exempt from tax in the hands of the recipients if the said company pays a dividend distribution tax at the prescribed tax rate on dividends declared, distributed or paid by them on or after 1 April 2003.

India-Mauritius tax treaty benefits shall now be subject to fulfilment of the conditions prescribed under the General Anti-Avoidance Rule ("GAAR").

Theforesaid rules i.e. GAAR have been introduced in the Indian Income Tax Act Finance Bill 2013 and shall be effective from financial year 2015.

Luxembourg

The Company is not liable to any Luxembourg tax on profits or income. The Company is however liable in Luxembourg to a tax of 0.05% per annum of its net asset value, such tax being payable quarterly on the basis of the value of the net assets of the Company at the end of the relevant calendar quarter. The tax rate is reduced to 0.01% per annum for the Euro Reserve sub-fund and Classes J, L, S, W, X and Z Shares in the relevant sub-funds. No stamp duty or other tax is payable in Luxembourg on the issue of shares.

The classes/sub-funds may be exempted from this 0.01% tax if they comply with the requirements of the articles 174 and 175 of the Luxembourg law of 17 December 2010 which include: (i) the shares of the class/sub-fund must be reserved to institutional investors; (ii) the exclusive object of the class/sub-fund's portfolio must be the investment in money market instruments and/or deposits with credit institutions; (iii) the remaining average maturity of the class/sub-fund's portfolio must be less than 90 days; and (iv) the class/sub-fund must benefit from the highest possible rating of a recognized rating agency.

Are also exempt from this tax:

- a) sub-funds/Classes whose Shares are reserved for (i) institutions for occupational retirement pension or similar investment vehicles, set up on one or more employers' initiative for the benefit of their employees and (ii) companies of one or more employers investing funds they hold, to provide retirement benefits to their employees;
- b) sub-funds whose main objective is the investment in microfinance institutions;
- c) sub-funds/Classes of Shares whose Shares are listed or traded on at least one stock exchange or another regulated market operating regularly, recognised and open to the public and whose exclusive object is to replicate the performance of one or more indices.

Notes to the Financial Statements

for the period ended 30 September 2014 (continued)

7. Taxation of the Company (continued)

Luxembourg (continued)

Also exempt from the tax are the value of assets represented by units/shares held in other UCIs provided that such units/shares have already been subject of this tax provided for by Article 174 of the 2010 Law or by Article 68 of the Law of 13 February 2007 as amended.

No Luxembourg tax is payable on the realised or unrealised capital appreciation of the assets of the Company.

Mauritius

The Subsidiaries are registered with the Financial Services Commission in Mauritius as offshore companies. As a result they are subject to a reduced rate of Mauritian income tax on their income. In addition, no Mauritian capital gains tax shall be payable in respect of the Subsidiaries investments in India and any dividends and redemption proceeds paid by the Subsidiaries to the Indian Equity or Global Emerging Markets Equity sub-funds shall be exempt from Mauritian withholding tax. A certificate of Mauritian tax residence has been granted to the Subsidiaries by the Mauritius Revenue Authority. On the basis that they are Mauritian tax residents, the Subsidiaries have to date qualified for certain reliefs from Indian tax as set out in the Indian tax paragraph above.

United Kingdom

It is the intention of the Board of Directors to conduct the affairs of the Company so that it does not become resident in the United Kingdom. On the basis that the Company is not resident in the United Kingdom for tax purposes it should not be subject to United Kingdom corporation tax on its income and capital gains.

France

For the purpose of eligibility requirements of Article L-221-31 of the French Monetary and Financial Code, the following sub-funds have invested in excess of 75% of equity or equity equivalent securities, which have their registered office in a country which is a member of the EU or the European Economic Area.

	% of holdings in shares
Euroland Equity	96.26
Euroland Equity Smaller Companies	97.62
Euroland Growth	92.00
European Equity	85.80
UK Equity	93.12

General

In many markets the Company, as a foreign investment fund, may be subject to non-recoverable tax on income and gains (either by withholding or direct assessment) in relation to the investment returns it realizes from its holdings of shares and securities in those markets. Where practicable the Company shall make claims under the relevant double tax treaties and domestic law of the countries concerned in order to minimize the impact of local taxation on the investment return and to obtain the best return for its shareholders. Those claims shall be made on the basis of the Company's understanding of the validity of such claims given the information available from the Company's depositaries, external advisers and other sources as to the interpretation and application of the relevant legal provisions by the tax authorities in the country concerned.

The Company shall seek to provide for tax on capital gains where it considers that it is more likely than not that the tax shall be payable, given the advice and information available to the Company at the date concerned. However, any provision held may be insufficient to cover, or be in excess of, any final liability.

Notes to the Financial Statements

for the period ended 30 September 2014 (continued)

7. Taxation of the Company (continued)

General (continued)

The Company shall seek to claim concessionary tax treatment and account for tax on a best efforts basis, given the tax law and practice at that date. Any change in tax law or practice in any country where the Company is registered, marketed or invested could affect the value of the Company's investments in the affected country. In particular, where retrospective changes to tax law or practice are applied by the legislature or tax authorities in a particular country these may result in a loss for current Shareholders in the affected sub fund. The Company does not offer any warranty as to the tax position of returns from investments held in a particular market nor of the risk of a retrospective assessment to tax in a particular market or country.

8. Public and bank holidays in Hong Kong

HSBC Investment Funds (Hong Kong) Limited has been appointed by the Company as its Representative and Share Distributor in Hong Kong. There shall be no dealing for the shares of the Company in Hong Kong on a day which is a public or bank holiday in Hong Kong.

9. Forward foreign exchange contracts

As at 30 September 2014, the Company had entered into various forward foreign currency contracts, for the purpose of hedging the portfolio and the respective share classes, which obliges the Company to deliver currencies at specified dates. Open contracts are as follows:

Contracts with a settlement date of 30 September 2014 still appear because they were open at the time of the preparation and publication of the net asset value as at 30 September 2014.

14. Dividends

Most distributing fund share classes in issue as at 30 September 2014 have had UK Reporting Fund status, either from 1 April 2010 or from the launch of the fund share class concerned. It is the intention of the Company that all Distributing and Accumulating Share Classes have UK Reporting Fund status from 1 April 2013. As and when new fund share classes are launched, UK Reporting Fund applications shall be made to HM Revenue & Customs accordingly. Details of the share classes that have UK Reporting Fund status can be found on the HM Revenue & Customs' website (www.hmrc.gov.uk).

At the date of this Report, the status can be found at <http://www.hmrc.gov.uk/collective/rep-funds.xls>.

The Company publishes annual reportable income information that shareholders require for their UK tax returns at www.kpmgreportingfunds.co.uk. If investors do not have access to the internet they can apply in writing at the registered office of the Company.

The investment adviser and its connected persons of the following sub-funds have entered into soft commission arrangements with certain brokers, for which goods and services used to support the investment decision making process were received by it or its connected persons:

ASEAN Equity,
 Asia ex Japan Equity,
 Asia ex Japan Equity Smaller Companies,
 Asia Pacific ex Japan Equity High Dividend,
 Chinese Equity,
 Hong Kong Equity,
 Korean Equity,
 Singapore Equity,
 Taiwan Equity,
 Thai Equity,
 Managed Solutions – Asia Focused Income,
 Managed Solutions – Asia Focused Growth,
 Managed Solutions – Asia Focused Conservative

The investment adviser or its connected persons do not make direct payment for these services, but transact and agree an amount of business with brokers on behalf of the sub-funds concerned. All transactions were entered into in the ordinary course of business and on normal commercial terms.

Commissions were paid by the Company on these transactions. The goods and services utilized for the Company include the following: research and advisory services; portfolio analysis, including valuation and performance measurement; market analysis, data and quotation services; computer hardware and software incidental to the above goods and services; clearing and depositary services and investment related publications.

The Management Company is also entitled to a Performance Fee, which is payable annually in arrears after the end of each twelve month period.

Performance Fees are disclosed in the Statement of Operations, whilst the Performance Fee calculation method is explained on Page 117. Detailed Performance Fee information may also be found in the Prospectus dated August 2013 (including addenda dated November 2013 and May 2014).

Notes to the Financial Statements

for the period ended 30 September 2014 (continued)

17. List of movements in the investment portfolio

The detailed list of movements in the investment portfolio can be obtained free of charge upon request at the registered office of the Company. The current Prospectus, the Articles of Incorporation, together with both the interim and audited annual reports are available free of charge upon request from the German payment and information officer from the Management Company.

18. Pricing Adjustment Single - Swinging Prices (SSP)

In the SSP method, the expenses resulting from subscriptions and redemptions above a pre-defined threshold, for the acquisition and disposal of shares (price/offer margins, market-appropriate brokerages, commissions, charges etc.) are included in the calculation of the net asset value. The net amount resulting from the difference between subscriptions and redemptions determines the adjustment of the portfolio and thus the resulting expenses. The transaction costs incurred on the day of trading for subscriptions and redemptions will be paid by the investors who commission these transactions.

If the subscriptions on a particular day of trading exceed the redemptions and the threshold for the application of an adjustment, then the fund management will add the transaction costs incurred by the excess of subscriptions at the calculated "valuation net asset value". This amount is known as the "modified net asset value". On the other hand, if the redemptions on a particular valuation day exceed the subscriptions and the threshold for the application of an adjustment, then the transaction costs resulting from the excess of redemptions will be deducted from the "valuation net asset value". The surcharge on or deduction from the transaction costs that is incurred by subscriptions is effected at a flat rate, and is based on an average value from a previous period of a maximum of one year.

If the fund has been on the market for less than one year, then depending on the fund's special features this factor will be determined depending on the fund's portfolio of investments, so that a representative figure results.

The table below discloses the NAV per share before swing price adjustment (the "Un-swung NAV") and the NAV per share after swing price adjustment (the "Swung NAV") for sub-funds which have been impacted by swing price adjustment on 30 September 2014.

19. Disclosure requirements for Index-tracking UCITS: Economic Scale Index GEM Equity Fund

The Economic Scale Index GEM Equity Fund is the sole index tracking Sub-fund existing at the date of this report.

The annualised tracking error for the period 30 September 2014 is 0.27%.

The annualised Tracking Errors are internally calculated by HSBC, based upon investment accounting performance returns using close of market prices, gross of fees, based on monthly data points. For example, 12 monthly points for 1 year, 36 monthly points for 3 years and 60 monthly points for 5 years.

There was no significant divergence between the anticipated and realised tracking error over the financial period ended 30 September 2014.

Currency Conversion Table

To help shareholders to calculate the performance of their individual investment, in the relevant reference currency, we have produced the following table. It shows the value of one US Dollar against various currencies (as at the given dates).

	30 September 2014	31 March 2014
	USD	USD
AUD	1.1428	1.0789
CAD	1.1176	1.1038
CHF	0.9555	0.8834
CNY	6.1395	6.2180
EUR	0.7916	0.7256
GBP	0.6168	0.5998
HKD	7.7651	7.7570
JPY	109.6950	102.9866
NOK	6.4228	5.9871
SEK	7.2084	6.4836
SGD	1.2753	1.2576

Dealing Days of the Fund

Dealing for Shares in the Company will take place on any Business Day (other than days during a period of suspension of dealing in Shares) and which is also for each sub-fund, a day where stock exchanges and regulated markets in countries where the sub-fund is materially invested are open for normal trading.

The Business Days which are not Dealing Days will be listed in the annual report and semi-annual reports and available at the registered office of the Company. Any amendments to such lists are also available at the registered office of the Company.

Shareholders who deal through the Company's local distributor or representative should note that there will be no dealing for the Shares of the Company in the jurisdiction in which such distributor or representative operates on a day which is not a Business Day in such jurisdiction. Shareholders in such jurisdictions can however deal via the Transfer Agent in Luxembourg.

The Company will determine the dealing/non-dealing calendar according to the latest market information obtained by the Company from time to time. Shareholders can obtain the latest dealing/non-dealing calendar of the Company from the registered office of the Company or from the Company's local distributor or representative.

HSBC Global Investment Funds (“HGIF”)

Fund Holiday Calendar for 2015

NOTE: THIS CALENDAR IS INDICATIVE AS DATES IN SOME COUNTRIES HAVE YET TO BE CONFIRMED * AND/OR DATES ARE SUBJECT TO CHANGE.

All HGIF sub-funds will have no NAV calculated on the following days:

- all Saturdays and Sundays
- and on the following dates:

1 January	Luxembourg
3 April	Luxembourg
6 April	Luxembourg
1 May	Luxembourg
14 May	Luxembourg
25 May	Luxembourg
23 June	Luxembourg
17 August	Luxembourg
2 November	Luxembourg
24 December	Luxembourg
25 December	Luxembourg
28 December	Luxembourg

In addition, the following sub-funds will have no NAV calculated on the following dates:
