Risk and Reward Profile

The risk and reward indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment.

Why is this Fund in this specific category?

This Fund is classified in category 7 because its price or simulated data has shown very high fluctuations historically.

Material risks not fully captured by the Risk and Reward Indicator:

- **Counterparty Risk** The possibility that the counterparty to a transaction may be unwilling or unable to meet its obligations.
- **Derivatives Risk** Derivatives can behave unexpectedly. The pricing and volatility of many derivatives may diverge from strictly

reflecting the pricing or volatility of their underlying reference(s), instrument or asset.

- **Emerging Markets Risk** Emerging markets are less established, and often more volatile, than developed markets and involve higher risks, particularly market, liquidity and currency risks.
- **Exchange Rate Risk** Changes in currency exchange rates could reduce or increase investment gains or investment losses, in some cases significantly.
- **Investment Leverage Risk** Investment Leverage occurs when the economic exposure is greater than the amount invested, such as when derivatives are used. A Fund that employs leverage may experience greater gains and/or losses due to the amplification effect from a movement in the price of the reference source.
- **Liquidity Risk** Liquidity Risk is the risk that a Fund may encounter difficulties meeting its obligations in respect of financial liabilities that are settled by delivering cash or other financial assets, thereby compromising existing or remaining investors.
- **Operational Risk** Operational risks may subject the Fund to errors affecting transactions, valuation, accounting, and financial reporting, among other things.

Charges

The charges you pay are used to pay the running costs of the Fund, including the marketing and distribution costs. These charges reduce the potential growth of the investment.

One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charge	2.15%
