

Key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Global Total Return Credit Fund

A sub-fund of Ninety One Funds Series ii
managed by Ninety One Fund Managers UK Limited

Class A Income-2 shares in sterling
ISIN: GB00BF4JM120

Objectives and investment policy

The Fund aims to provide income and long-term capital growth.

The Fund targets a positive performance return in excess of 3 month GBP LIBOR (an interbank lending rate) +4% gross of fees over a full credit cycle (economic conditions over which the cost of borrowing initially increases, then decreases and then stabilises. Credit cycles can vary in length and typically last between 3 and 7 years). The Fund's performance target and positive returns are not guaranteed over the full credit cycle or any period of time and you may get back less than you invested.

The Fund invests primarily in a diverse range of debt securities (contracts to repay borrowed money which pay interest at fixed or variable times e.g. bonds, deposits, bills and notes). These securities are issued by governments, institutions or companies from around the world including emerging markets (countries that are in economic terms less developed than the major Western countries) and may be of investment grade (high quality) or below investment grade as rated by the credit rating agencies (companies that rate the ability of the issuers of bonds to repay borrowed money).

The Fund's investments are primarily priced in GBP sterling or hedged (an investment technique which aims to protect the value of an investment against currency movements) back into GBP sterling.

The Fund may invest in other assets such as cash, money market instruments (tradable securities where money can be invested for short periods), other funds (which may be managed by the Investment Manager, other companies in the same group as the Investment Manager or a third party) and derivatives (financial contracts whose value is linked to the price of an underlying asset). Derivatives may be used for investment purposes (i.e. in order to achieve the Fund's investment objectives) or for efficient portfolio management purposes e.g. with the aim of either managing the Fund risks or reducing the costs of managing the Fund.

The Fund is actively managed. This means the Investment Manager is free to select investments with the aim of achieving the Fund's objectives.

The Fund cannot replicate the target benchmark index (LIBOR is an interbank lending rate). The Investment Manager is free to choose the investments of the Fund and these will not resemble the components of the benchmark index.

The Investment Association £ Strategic Bond Sector average (as calculated by Morningstar using a peer group of broadly similar funds) is an additional measure by which you can compare the Fund's performance.

Any income due from your investment is paid out to you quarterly.

You can buy or sell shares in the Fund on any Dealing Day in the UK, as defined in the definitions section of the Ninety One Funds Series Omnibus prospectus.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within the short to medium term.

Risk and reward profile

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund. The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean 'risk free'.

The value of your investment and any income from it can fall as well as rise and you are not certain of making profits; losses may be made.

The Fund appears towards the middle of the Risk and Reward Indicator scale. This is because the mix of assets it invests in tends to fluctuate more widely.

Risks that may not be fully captured by the Risk and Reward Indicator:

Charges from capital: Expenses are charged to the capital account rather than to income, so capital will be reduced. This could constrain future capital and income growth. Income may be taxable.

Default: There is a risk that the issuers of fixed income investments (e.g. bonds) may not be able to meet interest payments nor repay the money they have borrowed. The worse the credit quality of the issuer, the greater the risk of default and therefore investment loss.

Derivatives: The use of derivatives may increase overall risk by magnifying the effect of both gains and losses leading to large changes in value and potentially large financial loss. A counterparty to a derivative transaction may fail to meet its obligations which may also lead to a financial loss.

Government securities exposure: The Fund may invest more than 35% of its assets in securities issued or guaranteed by a permitted sovereign entity, as defined in the definitions section of the Fund's prospectus.

Interest rate: The value of fixed income investments (e.g. bonds) tends to decrease when interest rates rise.

Liquidity: There may be insufficient buyers or sellers of particular investments giving rise to delays in trading and being able to make settlements, and/or large fluctuations in value. This may lead to larger financial losses than might be anticipated.

The full list of the Fund's risks are contained in the appendices of the Ninety One Funds Series omnibus prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment. The entry charge shown is the most you might pay, in some cases you might pay less. You can find out actual entry charges from your financial adviser.

The ongoing charges figure shown here is an estimate of the charges, as there has been a change to the charging structure. The Fund's annual report for each financial year will include detail on the exact charges made. The figure excludes any performance fee and portfolio transaction costs, except in the case of an entry or exit charge paid by the Fund when buying or selling units in another fund. Ongoing charges may vary from year to year.

For more information about charges, please see section 7 of the Ninety One Funds Series omnibus prospectus.

One-off charges taken before or after you invest

Entry charge	0%
Exit charge	None

This is the maximum that might be taken out of your money before it is invested.

Charges taken from the fund over a year

Ongoing charge	1.35%
----------------	-------

Charges taken from the fund under certain specific conditions

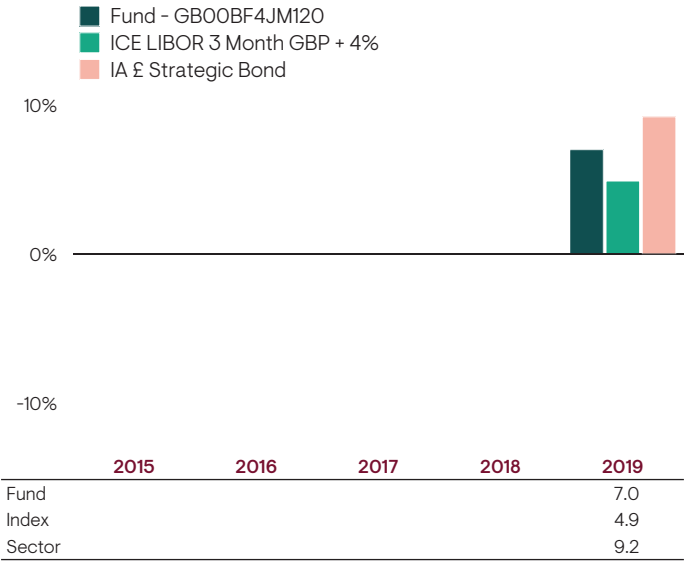

Performance fee	None

Past performance

Past performance is not a guide to future performance. The value of your investment and income from it may go down as well as up and you may not get back the amount you invested. The Fund does not track an index, any index shown is for illustrative purposes only.

The past performance shown in the chart takes account of all charges except the Fund's entry charge and the past performance is calculated in sterling.

The Fund was launched on 11 May 2018.

Practical information

The Fund's depositary is State Street Trustees Limited. The latest published prices for shares in the Fund are available on www.ninetyone.com. Other share classes are available for this Fund as described in the Ninety One Funds Series omnibus prospectus. UK tax legislation may have an impact on your personal tax position.

The Fund is a sub-fund of Ninety One Funds Series ii. You may switch between other Ninety One Funds Series i, ii, iii or iv sub-funds or share classes of the same sub-fund at no extra charge (unless the other share class has a higher entry charge, in which case the difference may be payable). Details on switching are contained in section 3 of the Ninety One Funds Series omnibus prospectus. The assets of the Fund are ring-fenced and cannot be used to pay the debts of other Ninety One sub-funds in the same Ninety One Fund Series.

Ninety One Fund Managers UK Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Ninety One Funds Series omnibus prospectus.

The latest remuneration policy relating to Ninety One Fund Managers UK Limited is available free of charge on request from the address below or from: www.ninetyone.com/remuneration

English language copies of the Ninety One Funds Series omnibus prospectus and Ninety One Funds Series ii latest annual and semi-annual reports may be obtained free of charge from Ninety One Fund Managers UK Limited, 55 Gresham Street, London EC2V 7EL.

This Fund is authorised in the United Kingdom and regulated by the Financial Conduct Authority.
