

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

ES River and Mercantile European Fund

F Accumulation (GBP), ISIN: GB00BMX4DN66
A sub-fund of the ES River and Mercantile Funds ICVC
Equity Trustees Fund Services Ltd is the Authorised Corporate Director of the Fund

Objectives and investment policy

The investment objective of the Fund is to achieve a return (income and growth in the value of your investment (known as “capital growth”)) over a rolling period of at least five years, by investing in a core concentrated portfolio of shares of European companies (typically numbering between 30 and 50). The Fund aims to achieve its objective over a business cycle, which is a multi-year period of time during which economic conditions are expected to move through distinct periods of being supportive and unsupportive of companies’ trading activities. The Fund will provide a dividend stream for investors derived from companies that the Investment Manager considers to have strong ESG characteristics, (meaning they contribute in a positive way to their customers and society) and which the Investment Manager believes are sustainable (expected to continue to demonstrate strong ESG characteristics), and appropriate with reference to the business cycle. The Investment Manager will assess the strength of ESG characteristics in accordance with its ESG Policy, available at www.equitytrustees.com.

The length of a business cycle varies and as such investors looking to measure the Fund’s performance against its objective should do so over a rolling period of at least five years.

The Fund seeks to achieve its investment objective by investing at least 80% of its value in shares of European companies which are domiciled, incorporated, or have significant operations in Europe (excluding the UK). Investment can be directly in equity, or indirectly in equity related securities. Indirect exposure may also be achieved by investing up to 10% of the Sub-Fund’s value in Collective Investment Schemes. Investment in Collective Investment Schemes may include other funds managed by the Investment Manager or its affiliates. Up to 20% of the Fund may be invested in shares of ‘non-European’ companies (including emerging markets and the UK), collective investment schemes and cash. The Fund’s investment into UK companies may be up to 10% of the Fund’s net assets, but typically will not exceed 5% of the Fund’s net assets.

The Fund may use derivatives for the purposes of reducing risk or cost or for generating extra income or growth (known as “efficient portfolio management”). As an example, the Fund may use forward contracts for currency hedging with the intention of reducing the risk arising from currency exposures in a cost-effective way.

The Fund is actively managed, meaning the Investment Manager will use their expertise to pick investments to achieve the Fund’s objectives.

The Investment Manager will use the River and Mercantile PVT (Potential, Valuation and Timing) Investment Philosophy and a business cycle framework to select shares. The PVT Investment Philosophy has been in place since the PVT Team was launched in 2006 and looks for companies that are considered by the Investment Manager to have attractive “Potential” (the ability to grow shareholder value through increases in profits and cash), “Valuation” (the price of shares on the stock market is lower than the value the Investment Manager gives to the shares) and “Timing” (the extent to which analytical indicators are supportive of investing at the time of analysis). The business cycle framework entails an analysis of the likely prevailing environment for various types of businesses and tilting the portfolio accordingly, particularly at economic turning points. The Investment Manager considers the PVT Investment Philosophy and business cycle framework to be highly complementary approaches to stock picking and portfolio construction.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund’s ranking on the Risk and Reward Indicator.

This Fund is ranked at 5 because funds of this type have experienced medium to high rises and falls in value in the past. The risk and reward score is based on past performance and calculated in accordance with European legislation. It may not be a reliable indication of the future risk profile. The risk and reward score is not guaranteed and may change over time. The lowest category does not mean risk free. While the risk indicator takes into account the broader risk profile, the following risks are considered most relevant to this Fund:

- **Equity Securities:** Equities can lose value rapidly, and typically involve higher market risks than bonds, money market instruments or other debt instruments. Fluctuation in value may occur in response to activities of individual companies, the general market, economic conditions, or changes in currency exchange rates.
- **Small and Mid-Cap Stock:** Stocks of small and mid-size companies can be more volatile and less liquid than stocks of larger companies. Small and mid-size companies often have fewer financial resources, shorter operating histories, and less diverse business lines, and as a result can be at greater risk of long-term or permanent business setbacks.
- **Concentration:** In certain conditions the Sub-Fund may invest in a relatively small number of securities , which may result in portfolio concentration in sectors, countries, or other groupings. These potential concentrations mean that a loss arising in a single investment may cause a proportionately greater loss in the Sub-Fund than if a larger number of investments were made.
- **Liquidity:** There is a risk that adverse market conditions may affect the Fund’s ability to sell assets at the price the Fund would like, or the Fund may have to sell them at a loss.
- **Currency:** To the extent that a Sub-Fund holds assets that are denominated in currencies other than the base currency, any changes in currency exchange rates could reduce investment gains or income, or increase investment losses.
- **ESG Investing:** The Fund may use certain ESG criteria in their investment strategies. This may limit the types and number of investment opportunities available and, as a result, the Fund may underperform in relation to other funds that do not have an ESG focus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	5.25%*
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment.

*The current entry charge is 0% and if we wish to increase this charge then 60 days' notice will be provided.

Charges taken from the fund over a year

Ongoing charge	0.45%
----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	None
-----------------	------

- The ongoing charges figure is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
- The on-going charges figure is from audited Report & Accounts dated 30/09/2021. This figure may vary year on year. It excludes transaction costs charged to the fund such as broker's commission and local taxes of buying and selling securities in the underlying Fund.
- For more information about charges please see pages 57 to 60 of the Fund's Principal Prospectus.

Past Performance
