ES Share Centre Multi Manager Growth Fund

Class A Accumulation, ISIN: GB00B2NLM962

A sub-fund of the ES Share Centre ICVC

Equity Trustees Fund Services Ltd is the Authorised Corporate Director of the Fund

Objectives and investment policy

The Sub-Fund aims to provide capital growth.

The Sub-Fund seeks to achieve its investment objective by investing at least 80% of its value in a portfolio of collective investment schemes (CIS'), that includes Open Ended Investment Companies (OEICs), Unit Trusts, Investment Trusts and Exchange Traded Products (ETPs).

The CIS' will invest at least 80% in listed equities and/or income securities (more widely referred to as sovereign, corporate or consumer debt). The listed equities and/or income securities can be in companies in any market and sector.

Investment in collective investment schemes (which includes exchange traded funds) may include those operated and/or managed by the ACD or the Investment Manager.

Subject to the Sub-Fund's investment objective as set out above, the additional asset classes in which the Sub-Fund may indirectly invest are: money market investments and commodities.

The Sub-Fund is actively managed meaning the Investment Manager uses their expertise to pick investments to achieve the Sub-Fund's objective.

The Investment Manager will select investments for the Sub-Fund through its Investment Appraisal process. The Investment Appraisal process evaluates the CIS' managers investment style and how investments are made over the economic cycle (the natural fluctuation of the economy between periods of expansion and contraction). The Investment Manager looks to invest for the medium to long-term (typically longer than 3 years), and will look for investments that they consider to be undervalued and therefore have a greater potential for generating growth.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

**Typically lower rewards,
Lower risk**

**Typically higher rewards,
Higher risk**

- This Fund is ranked at 5 because funds of this type have experienced medium to high rises and falls in value in the past.
- This Fund invests into other funds which themselves invest in assets such as bonds, company shares, cash and currencies. The objectives and risk profiles of these underlying funds may not be fully in line with those of this Fund.
- For funds investing globally, currency exchange rate fluctuations may have a positive or negative impact on the value of your investment.
- Bonds may be affected by changes in interest rates, inflation and any decline in creditworthiness of the bond issuer. If interest rates rise, the fixed income earned from bonds becomes less attractive to investors, so the demand for bonds may fall and their capital value may decrease. Bonds that produce a higher level of income usually also carry greater risk as such bond issuers may have difficulty in paying their debts.
- The Fund currently has a position in the LF Woodford Equity Income Fund which investors should be aware is currently suspended. The ACD does not believe that the holding materially impacts the overall liquidity of the Fund.
- For further risk information please refer to the prospectus.
